Release Notes for ExtraView 11.2.5

Date: 2/3/18

Feature Enhancements

Module: BatchMail

Issue #	Title	Release Note
356328	Attachement links displayed on outgoing emails.	Previously, Attachment Links appeared on all outgoing emails when the field to which they are linked is on the appropriate layout. There is an enhancement, with the provision of a new security permission key named PR_RESOLUTION. ATTACHMENT_LINK_NOTIFICATION. This allows the administrator to include or exclude the Attachment Links for any role. The rationale is that there are occasionally user roles where the administrator wants users to not see the actual attachments, although they do want them to see the contents of the field to which they are linked.

Module: Search / Report

Issue #	Title	Release Note
347898	After editing a report, the report folder tree will now display showing the report that was just edited in view of the user	Previously, the report screen was redrawn entirely and the user was placed at the top of the report list. Now, the report they just created or updated will be displayed in view of the user.

Fixed Bugs

Module: Add & Edit			
Issue #	Found in Release	Title	Release Note
356009	11.2.3	In a configuration with LOG AREA fields beneath a TAB field, the contents of the LOG AREA field could be hidden after a user clicked on a tab within the Tab Field	This only happened in multi-locale sites and with the specific configuration outlined in the title to this issue. The problem has been fixed.
			Count: 1 rows

Module: Administration			
Issue #	Found in Release	Title	Release Note
355964	11.1.0.1	Error observed when using the administrative report manager to copy reports	This was an intermittent problem. This was fixed.
			Count: 1 rows

Module: Attachments			
Issue #	Found in Release	Title	Release Note
349116	11.1.1	Duplicate image thumbnails were being created in the database attachment table	This only became a problem when a user attempted to delete an entire issue, and the duplicate prevented the deletion from happening. This has been resolved.
			Count: 1 rows

Module: Interest Lists			
Issue #	Found in Release	Title	Release Note
355792	11.2.3	If a user updated an issue where they were on the "issue interest" list -- they were removed from the interest list	The correct value for the interest list checkbox was not being set on the form when a user edited the issue. Then, when the user was previously set to be on the interest list, they were inadvertently removed from the interest list. This has been fixed.
			Count: 1 rows

Module: Layout Rendering			
Issue #	Found in Release	Title	Release Note
355763	11.2.3	Repeating row Checkbox field value was not showing as "N" when the value was "not selected" within detailed reports	This has been fixed.

Fixed Bugs

			Count: 1 rows

Module: Search / Report			
Issue #	Found in Release	Title	Release Note
355561	11.2.3	"Use Allowed Values in Filters" - values presented in the popup selection could be incorrect	This proved to be a caching problem. The problem has been fixed
