Release Notes for ExtraView 22.0.1

Jul 7, 2022

Feature Enhancements

Module: Search / Report		
Issue #	Title	Release Note
404211	New ability to place individual attachment fields on Treegrid and Column reports	The Attachment File Name, Attachment Thumbnail and Attachment Description fields may now be placed independently on these report types, as opposed to placing all attachment fields at one time on the reports.
		Count: 1 rows

ExtraView Support Site

Fixed Bugs

Module: Add & Edit			
Issue #	Found in Release	Title	Release Note
404838	22.0	Overlapping fields with images_light_blue	When using the images_light_blue stylesheet, the vertical space was insufficient to separate fields on add / edit screens. in some configurations. This has been fixed.
404629	22.0	html tags getting printed on the screen when used in Alternate Title	Required fields which contained the HTML and tags would display the HTML tags when the issue was submitted and the required field was empty. This has been fixed
404619	22.0	Inconsistent spacing between folds placed vertically on add and edit screens	This was fixed to ensure there is always a minimum amount of space between successive folds
404585	20.1.1	Tabbing between fields was not working with some field types	The ability to tab between fields that included list fields and checkbox fields was not working and was fixed
404489	22.0	Style layout cell attribute of display:none was not working on popup list fields	This was fixed
404445	22.0	Error generating PDF report	This only happened when repeating row fields were included within the report, and no repeating rows existed for any issue. This was fixed
404428	22.0	The text within Ruler display-type fields would not display in bold text	This was fixed
404394	22.0	The menubar Print button did not function	This was fixed
			Count: 8 rows

Module: General code issues			
Issue #	Found in Release	Title	Release Note
404439	22.0	The update to Firefox browser, version 100 caused problems	There were some areas of code that were expecting a 2-digit version number for the browser, and when this went to 3 digits, an error occurred. This was fixed.
404429	22.0	Overlapping fields within various screens	The stylesheets for images_light_blue were adjusted to show more vertical space between fields.
			Count: 2 rows

Module: LDAP			
Issue #	Found in Release	Title	Release Note
404864	20.1	LDAP Authentication and local password expiration	This affected users with hybrid LDAP / local authentication. If a user's password was expired, and their account was set to use LDAP authentication, they would receive an alert. Only the LDAP server should be used for this check, not the local server. This has been fixed.

Fixed Bugs

	Count: 1 rows

Module: Navigation Bar

Issue #	Found in Release	Title	Release Note
404901	22.0	Navigation Bar caching issue with reports	This required a fix to use the user's current role along with all possible roles a user may adopt. When a report's permission was changed, the fix spoilt the cache to ensure that the user's current settings would be used
404484	22.0	Navigation Bar sub-menus	The pointer to a sub-menu was not displayed. This did not affect functionality, but was repaired
			Count: 2 rows

Module: Search / Report

Issue #	Found in Release	Title	Release Note
404903	22.0	Navigation bar options to run a report returned a java.lang.NoSuchMethodException	This was fixed
404840	22.0	Reports - JavaScript issue with the folder tree structure	This only occurred with shared personal reports within a folder. The problem has been repaired
404583	22.0	Quicklist report headers were not restored after a screen refresh	This was fixed
404503	22.0	Shorten Wording on Buttons - Quicklist Report Screen - Cropping	The labels to buttons on the Quicklist and other report screens have been shortened to ensure users who have the large text personal setting see all the menubar buttons, without truncation.
			Count: 4 rows

Module: XML Import and Export

Issue #	Found in Release	Title	Release Note
404849	22.0	"export reports" option in Metadata migration could not display list of reports	This has been fixed so the report list appears correctly
			Count: 1 rows
			Total Count: 18 rows
