

# Release Notes for ExtraView 22.0.2

Jul 27, 2022

Feature Enhancements

Module: Add & Edit		
Issue #	Title	Release Note
405151	Configurable rendering of multi-value Popup fields	Multi-valued popup list fields may now be rendered horizontally or vertically on Add and Edit screens. Note that images associated with list values cannot be rendered when the list is displayed horizontally.
Count: 1 rows		

Module: Search / Report		
Issue #	Title	Release Note
401320	New ability to attach a saved set of "mass update fields" to a report and use them as the default mass update field selections	This is a time-saving feature, for users that need to perform a drilldown from Column and Treegrid reports, and then perform the same mass update operation on the result set in the report. The report editor may now select a saved set of mass update filters to use for the mass update.
Count: 1 rows		
<b>Total Count: 2 rows</b>		

## Fixed Bugs

Module: Add & Edit			
Issue #	Found in Release	Title	Release Note
405061	22.0.1	HTML modifier not being picked up when EDIT RID row becomes visible on Ajax refresh	This was fixed
			Count: 1 rows

Module: Business Rules			
Issue #	Found in Release	Title	Release Note
405070	22.0.1	Changes to metadata not being picked up immediately by Business Rules	The metadata being used by Business Rules was cached, and the cache was not being refreshed when a change to the metadata took place. This has been fixed so the cache is renewed once a metadata change takes place.
405060	22.0.1	Refresh rules on EDIT RID layouts spin forever on Firefox browser	This only affected Firefox browser users and was fixed.
404941	22.0.1	Link rules were including the current issue being created/edited	In previous versions, the current issue was not included within the results returned by the LINK directive. The previous functionality has been restored
			Count: 3 rows

Module: General code issues			
Issue #	Found in Release	Title	Release Note
405112	22.0.1	Startup problem when using Configuration.properties outside of the standard directory location	This was fixed.
			Count: 1 rows

Module: Search / Report			
Issue #	Found in Release	Title	Release Note
405183	22.0.1	RID_FILTERS using \$\$FIELD_NAME\$\$ convention were attempting to perform a reverse lookup on TEXTFIELDS	Text fields do not have internal IDs in the database and therefore no reverse lookup was needed
405170	22.0	Error running reports which involved repeating row issues - MySQL only	This only happened with complex queries involving repeating row data, and only on the MySQL database. The issue was resolved.
