Fixed Bugs

Module: Administration			
Issue #	Found in Release	Title	Release Note
414205	23.0	The "add user to interest list" page showed partial HTML on the screen and was not operable	This was fixed.
			Count: 1 rows

Module: Business Rules			
Issue #	Found in Release	Title	Release Note
414226	23.0	Security on outgoing emails	There is a new parameter on the MAIL business rule action command. This parameter allows the administrator to switch to a different role for outgoing email sent with the action command.
			Count: 1 rows

Module: Help system			
Issue #	Found in Release	Title	Release Note
413688	22.1	Remove Documentation link for end users in search popup	The link to admin documentation within the user search popup was confusing for end users. The link was of very limited use so has been removed from the popup
			Count: 1 rows

Module: Search / Report			
Issue #	Found in Release	Title	Release Note
413733	22.0.3	User IDs as opposed to user names in Reports not being displayed	The option to display a user's ID as opposed to their name on a report, was not working. This was fixed.
412104	22.0.3	Hierarchical reports utilizing "parents without children" were not working as expected	Reports using the "parents without children" option did not display the correct results. This has been fixed.
